HC Corvallis Campus
Winter 2023 Offerings

HC students can earn HC credits beyond the offerings listed in this schedule:

**Ecampus honors sections:** Corvallis campus honors students are also able to register for Ecampus honors sections. To see the Ecampus honors course & colloquium offerings, view the HC Ecampus schedule and course descriptions at [https://honors.oregonstate.edu/class-schedule](https://honors.oregonstate.edu/class-schedule).

*Tuition rates for Ecampus courses are different than on-campus courses and can be found at [https://ecampus.oregonstate.edu/services/ tuition/](https://ecampus.oregonstate.edu/services/tuition/).

Other important information:

**Add/Drop Deadlines:** Add/Drop deadlines for courses that take place in pre-term extension periods, weeks 1-5, or weeks 6-10 are different from the add/drop deadlines for courses that take place over the entire term. See the academic calendars for more information about the add/drop deadlines:

- Add/Drop Deadlines for regular courses that take place over the entire term: [https://registrar.oregonstate.edu/osu-academic-calendar/](https://registrar.oregonstate.edu/osu-academic-calendar/)
- Add/Drop Deadlines for “Non-traditional courses,” like courses that take place in the pre-term extension period, weeks 1-5, or weeks 6-10: [https://registrar.oregonstate.edu/non-traditional-course-academic-calendar](https://registrar.oregonstate.edu/non-traditional-course-academic-calendar)

*Reminder: Corvallis honors students can enroll in the honors Ecampus offerings: [https://honors.oregonstate.edu/class-schedule](https://honors.oregonstate.edu/class-schedule)*
Winter 2023 Corvallis Campus HC Bacc Core

ANTH 315H  Peoples of the World: Africa  3 HC Credit(s)
CRN: 40189  Section 001  LEC  MWF 1100 - 1150
Instructor(s): Julianne Freeman
Survey of peoples around the world. Early settlement, cultural history, ecological adaptations, population, family and gender roles, religious ideology, political and economic systems, modern social changes, and contemporary issues pertaining to indigenous peoples in culturally distinct regions of the world. Emphasis is placed on dispelling stereotypic images, both past and present. Satisfies: HC BaccCore - Cultural Diversity

ANTH 361H  Food Justice  4 HC Credit(s)
CRN: 40190  Section 001  LEC  TR 1200 - 1350
Instructor(s): Sarah Cunningham
Contemporary food systems are examined from a cultural and social justice perspective. The human right to food as recognized by the United Nations serves as the justice grounding point. Impediments to realizing the right to food will be examined in national and international contexts. Satisfies: HC BaccCore - Difference, Power, Discrimination

BI 222H  Principles of Biology: Organisms  4 HC Credit(s)
Register for the LEC and one LAB section:
CRN: 37112  Section 001  LEC  MWF 1300 - 1350  Nate Kirk
CRN: 37113  Section 010  LAB  W 1400 - 1650  Carmen Harjoe
CRN: 37114  Section 011  LAB  R 800 - 1050  Carmen Harjoe
CRN: 37115  Section 012  LAB  F 1400 - 1650  Carmen Harjoe
Introduction to fundamental biological concepts and theories about plant, and animal physiology, evolution, structure and function, transformation of energy and matter and systems at an organismal level. PREREQS: (BI 221 or 221H) and ((CH 121* or 201*) or ((CH 231* or 231H*) and (CH 261*, 261H* or 271*))).* May be taken concurrently. Course Fee $30. Satisfies: HC BaccCore - Biological Sciences

BOT 101H  Botany: A Human Concern  4 HC Credit(s)
Register for the LEC and the LAB:
CRN: 40667  Section 001  LEC  MWF 1600 - 1650
CRN: 40668  Section 010  LAB  T 1500 - 1750
Instructor(s): Stephen Meyers
Introductory botany for non-majors, emphasizing the role of plants in the environment, agriculture and society. Includes molecular approaches to the study of plant function and genetic engineering. Course Fee: $15. Satisfies: HC BaccCore - Biological Sciences

Reminder: Corvallis honors students can enroll in the honors Ecampus offerings: https://honors.oregonstate.edu/class-schedule
**CH 232H  General Chemistry**

Register for the LEC, one REC, and one CH 262H LAB

Second course in General Chemistry sequence for Honors College students with one-year high school chemistry and acceptable aptitude test scores. This sequence examines the characteristics of molecular and atomic behavior and the way in which these influence chemical properties and reactions. PREREQ: (CH 231/231H OR CH 221) AND (CH 261/261H OR CH 271 OR CH 221 OR CH 224H). COREQ: CH 262/262H or CH272. CH 232H and CH 262H must be taken concurrently. CH 231/231H, CH 232/232H, and CH 233/233H must be taken in order. **Course Fee $30. Course fee is non-refundable.** Additional Supplies: [https://beav.es/iAk](https://beav.es/iAk). Satisfies: HC BaccCore - Physical Sciences

**COMM 111H  Public Speaking**

Instructor(s): Weng-Keen Wong

In-depth exploration of the social, psychological, political, and ethical issues surrounding the computer industry and the evolving information society. RESTRICTIONS: Minimum of junior standing required. **Satisfies: HC BaccCore - Science, Technology, Society**

Reminder: Corvallis honors students can enroll in the honors Ecampus offerings: [https://honors.oregonstate.edu/class-schedule](https://honors.oregonstate.edu/class-schedule)
ED 219H  **Social Justice, Civil Rights, and Multiculturalism in Education**  3 HC Credit(s)

CRN: 40214  **Section 001**  LEC  **WF 1200 - 1320**

Instructor(s): Kathryn McIntosh

Examination of equity and injustice based on social groupings such as race, gender, language, and ability. Exploration of equitable approaches and power in systems and institutions of society (e.g., schooling, curriculum, educational policy) and how to actively make change. Contemplation of multiculturalism and personal experiences through a wholeness approach. **Satisfies: HC BaccCore - Difference, Power, Discrimination**

HC 199  **Honors Writing**  3 HC Credit(s)

CRN: 31870  **Section 001**  LEC  **MWF 1000 - 1050**

Instructor(s): Emily Elbom

Becoming a critical reader and thinker promotes clear writing and verbal communication. You will hone your skills in a discussion/debate format, along with frequent in-class writing assignments and presentations. You will also further develop your abilities to be a critical reader. We will be examining texts from many disciplines and on a variety of topics; you will also bring in examples for discussion. The research paper, which includes both formal documents and informal writing, will focus on an ethical/controversial issue or current research within your discipline; this will include field and library research. **PREREQ: WR 121/121H. Satisfies: HC BaccCore - Writing II**

HSTS 417H  **History of Medicine**  4 HC Credit(s)

CRN: 36207  **Section 001**  LEC  **TR 1000 - 1150**

Instructor(s): Linda Richards

History of medical theory and the changing role of the physician; internal development of medicine as a discipline as well as a profession; relationship of medicine's development to general changes in science and culture. **Satisfies: HC BaccCore - Science, Technology, Society**

MTH 241H  **Calculus for Management and Social Science**  4 HC Credit(s)

CRN: 40559  **Section 001**  LEC  **MW 1000 - 1150**

Instructor(s): Peter Argyres

Elementary differential calculus of polynomial, logarithmic, and exponential functions and their applications to business, management and social sciences. **PREREQ: MTH 111, minimum score of 24 in 'Math Placement Test' or minimum score of 060 in 'Math Placement - ALEKS'. Satisfies: HC BaccCore - Mathematics**

**Reminder:** Corvallis honors students can enroll in the honors Ecampus offerings: [https://honors.oregonstate.edu/class-schedule](https://honors.oregonstate.edu/class-schedule)
**MUS 102H  History of Rock & Roll**

**CRN:** 40208  **Section 001  LEC  MWF 1200 - 1250**

Instructor(s): Ryan Biesack

This survey is a selected examination and study of musical and social events that have occurred in popular culture over a period of roughly the past 50 years, and what has come to be known generally as “Rock” music. The survey will begin its journey looking at the 1950s and the beginnings of Rock music and conclude with the Rock culture of today. The term “Rock” music will be used as an umbrella or generic term to cover the many variations of popular music that fall under its reach: Motown, Soul, R&B, Disco, Acid Rock, Death Metal, Thrash Metal, Punk Rock, Indy Rock, Grunge, etc. As there are numerous artists and performers who have contributed to Rock music, this survey will focus on a selected group who have significantly changed, or illustrate the change, in Rock music. This course will examine some of the pinnacle recordings, repertoire, artists, concerts, performances, and events to provide insight and meaning as to “how” and “what” this music was changing within popular culture in a historical and social context. By examining different works of Rock music, we can hope to extrapolate broader meaning and understanding of these events in an overarching sense relative to recent history. This course will also examine how Rock music has functioned as a vehicle for commentary on everything from sex to religion to politics, and how this music continues to be a relevant and ever changing vehicle in the present day. **Satisfies: HC BaccCore - Literature & The Arts**

**PH 213H  General Physics with Calculus**

**CRN:** 36422  **Section 001  LEC  MF 1300 - 1350**

**CRN:** 40220  **Section 002  STU  W 1200 - 1350**

Choose one LAB section

**CRN:** 36459  **Section 010  LAB  T 800 - 950**

**CRN:** 36423  **Section 020  LAB  T 1600 - 1750**

Instructor(s): Weihong Qiu

A comprehensive introductory survey course intended primarily for students in the sciences and engineering. Topics include mechanics, wave motion, thermal physics, electromagnetism, and optics. Elementary calculus is used. **PREREQS:** MTH 254/254H and PH 212/212H. **Satisfies:** HC BaccCore - Physical Sciences

**PH 223H  Recitation for Physics 213**

**CRN:** 32079  **Section 001  REC  R 1100 - 1150**

Instructor(s): Staff TBD

Honors recitation reserved for HC students enrolled in lecture/lab section of PH 213 or PH 213H. One-hour weekly session for the development of problem-solving skills in calculus-based general physics. **COREQS:** PH 213/213H. **Graded:** P/N. **Satisfies:** HC BaccCore - Physical Sciences

**Reminder:** Corvallis honors students can enroll in the honors Ecampus offerings: [https://honors.oregonstate.edu/class-schedule](https://honors.oregonstate.edu/class-schedule)
**PH 313H  Energy Alternatives**  
3 HC Credit(s)

CRN: 35408  
Section 001  
LEC  
MWF 900 - 950

Instructor(s): Randall Milstein

Students will learn to define energy and power, and to list the basic forms of energy, from the viewpoint of physics, and classify energy based on the way power is generated (renewable and non-renewable energy sources) such as hydropower, wind power, geothermal power, solar power, ocean wave power, nuclear power. Students will understand the main types of hydropower plants, and calculate the power wind carries, and know the efficiency and advantage/disadvantages of several types of wind turbines. Students will understand the two major techniques of converting solar power to electric power (concentrated solar power plants and photovoltaic panels); about geothermal resources and how Earth’s heat is harnessed for generating power; about ocean wave power converted to electricity; about electric cars, high-capacity batteries, fuel cells, and the infrastructure needed to make electric vehicles competitive to gasoline powered transportation; about biofuels and converting biomass into gasoline-like and diesel-like products; about sending electric power over long distances. Students will know the global distribution of major fossil fuels, and the approximate time before these non-renewable resources run out. **Satisfies: HC BaccCore - Science, Technology, Society**

**PHL/REL 443H  World Views and Environmental Values**  
3 HC Credit(s)

Register for either the PHL 443H section OR the REL 443H section, not both. Though there are two options for CRNs to use, this is one class that meets together.

**PHL 443H CRN:** 40209  
**Section:** 001  
**LEC**  
**MW 830 - 950**

**REL 443H CRN:** 40221  
**Section:** 001  
**LEC**  
**MW 830 - 950**

Instructor(s): Rob Figueroa

Human societies are characterized by a specific relation to nature. The way in which this relation is understood and implemented in narrative, policies, norms, and habits, reveals the way in which a society understands itself, how it is constituted and on which basic, shared values it rests. In this class we will explore and compare different models of the relation to nature and discuss the different forms of environmentalism that stem from them. We will examine leading ideas such as 'Sustainable Development', the 'Green Economy', and the debate revolving around 'Ecosystem Services' and their valuation. We will also engage with perspectives that question the Western model of development, like 'Degrowth' and 'Ecofeminism' or the vision of a 'Radical Ecological Democracy' developed by Indian environmental activists and the concept of 'Buen Vivir' (Living Well) stemming from indigenous people from Latin America. Environmental conflicts are value conflicts: different ways of understanding our relation to nature support different programs and projects to address the global ecological crisis. We will analyze some of them in details with great attention to different points of view and to the distribution of burdens and benefits (who are the winners and who are the losers in each of them? Whose perspective is being considered or neglected?). In this class, we will meet with different forms of texts and different disciplines: scholarly works in the fields of philosophy, ecology, ecological economics, and political theory; activists' and political documents; policy advice, narrative, and hypertexts. And of course also interviews and short films. **Recommended Prereqs:** One introductory-level science course and sophomore standing is recommended, but not required. **Satisfies: HC BaccCore - Contemporary Global Issues**
**PHL/REL 444H  Biomedical Ethics**  
4 HC Credit(s)

Register for either the PHL 444H section OR the REL 444H section, not both. Though there are two options for CRNs to use, this is one class that meets together.

**PHL 444H CRN:** 40210  
**Section:** 001  
**LEC**  
**TR 1000 - 1150**

**REL 444H CRN:** 40222  
**Section:** 001  
**LEC**  
**TR 1000 - 1150**

Instructor(s): Courtney Campbell

Application of ethical principles and decision-making processes to selected problems in medicine, health care, and biotechnology. Special attention is given to end-of-life choices, reproductive rights and technologies, organ transplantation, research ethics, genetic engineering, and allocating scarce resources. An interdisciplinary focus that draws on social, legal, economic, and scientific issues in ethical decisions in medicine. **Satisfies: HC BaccCore - Science, Technology, Society**

**PSY 202H  General Psychology**  
4 HC Credit(s)

**CRN:** 37133  
**Section:** 001  
**LEC**  
**TR 1400 - 1550**

Instructor(s): Juan Hu

Scientific study of behavior and experience. Motivation and emotion; personality; social psychology, human development, psychopathology and psychotherapy. **Satisfies: HC BaccCore - Social Processes & Institutions**

**REL/PHL 443H  World Views and Environmental Values**  
3 HC Credit(s)

Register for either the PHL 443H section OR the REL 443H section, not both. Though there are two options for CRNs to use, this is one class that meets together.

Application of ethical principles and decision-making processes to selected problems in medicine, health care, and biotechnology. Special attention is given to end-of-life choices, reproductive rights and technologies, organ transplantation, research ethics, genetic engineering, and allocating scarce resources. An interdisciplinary focus that draws on social, legal, economic, and scientific issues in ethical decisions in medicine. **Satisfies: HC BaccCore - Science, Technology, Society**

**WGSS 325H  Disney: Gender, Race, and Empire**

3 HC Credit(s)

- **CRN:** 40211  **Section:** 001  **LEC**  TR 1400 - 1520

Instructor(s): Kryn Freehling-Burton

Explores constructions of gender, race, class, sexuality, and nation in the animated films of Walt Disney; introduces concepts in film theory and criticism, and develops analyses of the politics of representation. **Satisfies: HC BaccCore - Difference, Power, Discrimination**

**WGSS 360H  Men and Masculinities in a Global Context**

3 HC Credit(s)

- **CRN:** 40439  **Section:** 001  **LEC**  TR 1600 - 1720

Instructor(s): Bradley Boovy

Students will become familiar with central topics in global masculinity studies, analyze texts in diverse media, develop original arguments, and engage with issues of masculinity and representation through written and creative work. **Satisfies: HC BaccCore - Contemporary Global Issues**

**WR 121H  English Composition**

3 HC Credit(s)

- **CRN:** 36211  **Section:** 001  **LEC**  TR 1200 - 1350

Instructor(s): Brandy St. John

Introduction to critical thinking, the writing process, and the forms of expository writing. Intensive writing practice, with an emphasis on revision. **WR 121H is NOT restricted by last name, so students can take this class in any term in which it is offered. Satisfies: HC BaccCore - Writing I**

**WR 222H  English Composition**

3 HC Credit(s)

- **CRN:** 40904  **Section:** 001  **LEC**  TR 1200 - 1350

Instructor(s): JT Bushnell

Continued practice in expository writing with an emphasis on argumentation and research. **PREREQS: WR 121/121H. Satisfies: HC BaccCore - Writing I**

Reminder: Corvallis honors students can enroll in the honors Ecampus offerings: [https://honors.oregonstate.edu/class-schedule](https://honors.oregonstate.edu/class-schedule)
**WR 327H  Technical Writing**  
3 HC Credit(s)  
CRN: 40213  
Section 001  
LEC  
TR 1400 - 1520  
Instructor(s): Brandy St. John  
Continued practice in writing with an emphasis on the rhetorical and critical thinking demands of writers in scientific and technological fields. PREREQS: WR 121/121H. RESTRICTIONS: Minimum of sophomore standing required. Satisfies: HC BaccCore - Writing II

**WR 362H  Science Writing**  
3 HC Credit(s)  
CRN: 38936  
Section 001  
LEC  
TR 1000 - 1120  
Instructor(s): Sarah Perrault  
Students learn and practice the conventions for writing scientific material for a variety of audiences. Involves writing and research assignments, multimedia presentations, lecture, and in-class and online activities. PREREQS: WR 121/121H. Satisfies: HC BaccCore - Writing II
Winter 2023 Corvallis Campus HC Colloquia

HC 299  Leadership: Two Perspectives  1 HC Credit(s)
CRN: 38996  Section 001  SEM  M 1600 - 1750

Instructor(s): Toni Doolen & Scott Ashford

Today’s organizations are complex, utilizing structures that cross cultural, national, and functional boundaries. Leaders in organizations must be able to navigate these complex structures, while understanding that organizations are comprised of individuals. Students in this course will examine different aspects of leadership and explore multiple perspectives on what creates/constitutes an effective leader. As in past offerings, this course will specifically address leading in crisis. Students will be provided multiple opportunities to reflect on how to develop and grow their own leadership capacity. This course will be co-taught by Dr. Ashford, Dean of the College of Engineering and Dr. Doolen, Dean of the Honors College. Meets weeks 1-5 only. Graded: P/N. Satisfies: HC Colloquia

HC 299  Expanding Sustainable Design for Society into K-12 Schools  1 HC Credit(s)
CRN: 40192  Section 002  SEM  T 1600 - 1650

Instructor(s): Cory Buxton

This colloquium will bridge two new projects at OSU: the interdisciplinary “Engineering and Design for Society (EDS)” initiative and the National Science Foundation funded “Language, Culture and Knowledge-building through Science (LaCuKnoS)” project. Students will get an overview of current ideas about sustainable design and using design thinking to solve social problems. Students will then work in small groups to develop an activity that teaching about sustainable design aimed at either middle school or high school students. This involves working directly with K-12 students in afterschool clubs and with families during family STEM workshops. This colloquium will teach skills in communicating and disseminating ideas about sustainability and design with broader community audiences who may be unfamiliar with these ideas. Multiple optional field trip visits to schools and programs will be planned for some weekday afternoons. Participating is encouraged if schedule allows, but not required. Graded: P/N. Satisfies: HC Colloquia

HC 299  Economics for a Better World  1 HC Credit(s)
CRN: 40193  Section 003  SEM  M 1100 - 1150

Instructor(s): Todd Pugatch

This course introduces, applies, and interrogates the economic approach to addressing social problems. Economics provides a framework to understand human and social behavior, how resources are produced and distributed, and how individuals and institutions respond to changes in circumstances. How can this framework be applied to solve social problems? The course begins by exploring the virtues and limits of economic markets to promote the social good. We then cover how the economic approach can help to understand and address a series of specific social problems, including poverty, discrimination, and climate change. The course is designed for students from any field of study who are interested in learning about addressing social problems from an economic perspective. The material assumes no previous familiarity with economics. Satisfies: HC Colloquia

Reminder: Corvallis honors students can enroll in the honors Ecampus offerings: https://honors.oregonstate.edu/class-schedule
HC 299  **Experiencing Transdisciplinary Research**  1 HC Credit(s)

CRN: 40215  Section 004  SEM  T 1000 - 1150  
Meets weeks 1-5 only.

Instructor(s): Irem Tumer & Andy Dong

To introduce students to transdisciplinary research methods, and to a collection of OSU faculty and their research projects. Class sessions will be split between introduction of information and concepts around research, and a research talk by a faculty speaker. Group discussions and collaborative learning activities will be used to further explore the concepts and topics under discussion. Students will conduct literature search and submit a written summary. Students will journal their summary of the research topics discussed during each lecture, including a summary of the research talk presented by the speakers. **Meets weeks 1-5 only. Graded: P/N. Satisfies: HC Colloquia**

HC 299  **Under Surveillance: Drones, Data, and More**  1 HC Credit(s)

CRN: 40194  Section 005  SEM  T 1000 - 1050  

Instructor(s): Joshua Reeves

Students in this introductory course will learn to think critically about many of the most important sociotechnical developments in the digital world, including transhumanism, state and corporate surveillance, drone warfare, and e-waste and environmental destruction. Ethical questions will be emphasized. **Satisfies: HC Colloquia**

HC 407  **Building Hope: International Service Learning**  2 HC Credit(s)

CRN: 38068  Section 001  SEM  W 1600 - 1750  

Instructor(s): David Kovac

You have the interest, energy, and motivation to travel and make a difference in the world...to experience a culture while giving back to the community. Where do you go? How do you get there? What do you do to ensure that you’re doing good, performing a much-needed service? We’ll help you prepare for any number of international service experiences — whether it be a mission trip, a more engaging study abroad experience, a community volunteer activity, or our own Building Hope HC Service Trip experience. Explore the complexities of international service from a variety of perspectives and learn how to balance your good intentions with cultural considerations and community–identified needs. Discover your passions, internationalize your OSU experience, and make meaningful contributions to building a better world. **Satisfies: HC Colloquia**

HC 407  **Religion and Morality: Congruity or Paradox?**  1 HC Credit(s)

CRN: 40440  Section 002  SEM  T 1200 - 1350  
Meets weeks 1-5 only.

Instructor(s): Tenisha Tevis

Reading *The Shack*, together we will interrogate the relationship between religion and morality, and whether society needs religion to be moral. Set in Oregon, this fictional tale takes us on a spiritual journey with the main character, his experience with extreme loss and the choices he makes about God. The book provokes questions about who/what is God and whether individuals can not only be moral but also heal, forgive, and let go of deep hurt without religion. As a class, we will grapple with religion, more specifically Christianity, as a founding principle for Western societies, and its impact on the world today. **Meets weeks 1-5 only. Graded: P/N. Satisfies: HC Colloquia**

Reminder: Corvallis honors students can enroll in the honors Ecampus offerings: [https://honors.oregonstate.edu/class-schedule](https://honors.oregonstate.edu/class-schedule)
**HC 407 Nuclear Weapons - What to Know**

**CRN:** 40203  
**Section:** 003  
**SEM:** MW 900 - 950  
**2 HC Credit(s)**  
**Required all-day field trip, Friday, 2/17/23**  

Instructor(s): Jack Higginbotham

Explore the development of nuclear weapons; the science, the engineering, the political forces driving their development, the strategies of deployment, the effects of detonation, how countries maintain their stockpiles and why the genie can’t be put back in the bottle. A class field trip to the Evergreen Aviation and Space Museum is planned to provide students with a hands-on experience with the tools countries developed for delivering nuclear weapons on a target. This an instructor guided tour will describe the engineering challenges of developing planes and rockets to deliver weapons, including the Redstone backstory of the Cuban Mission Crisis, the ICBM that exploded in Arkansas when President Clinton was the governor, how the cold war space race led the technological advances for getting to and returning from space, the role of drones in seeking out hidden weapons. Required all-day field trip, Friday, February 17th. Course Fee: $39. Graded: P/N. Satisfies: HC Colloquia

---

**HC 407 The Hidden History of Women at Oregon State University**

**CRN:** 38069  
**Section:** 004  
**SEM:** W 1000 - 1150  
**2 HC Credit(s)**  

Instructor(s): Tiah Edmunson-Morton & Christoffer Petersen

Women have been fundamental to OSU’s story since it was founded in 1868, but too often their achievements, struggles and day-to-day experiences have been omitted from mainstream accounts of the university’s history. This class seeks to uncover pieces of this rich but hidden historical narrative by focusing on the themes and individuals who have shaped the academic and social milieu for women at OSU for more than 150 years. Specific topics include the rise and fall of Home Economics as the predominant form of academic engagement for women faculty and students; the strict formal rules and social controls that traditionally governed women’s lives on campus; the hugely significant impact made by Title IX on all manner of campus activities beginning in the mid-1970s; and the struggle against sexism and sexual violence that was spearheaded by the Women’s Center around the same time, and that reached its crescendo in the late 1990s. Students in the class will also contribute to the historical record by conducting an oral history interview with a woman who is somehow connected with OSU, contextualizing that interview, and making it available on a dedicated web portal. Taught by two archivists and experienced oral historians, the class takes a combined approach to instruction, making use of lectures, historic images, film clips, discussion and document analysis to explore topics related to women’s history, as well as the practice and theory of oral history. Graded: P/N. Satisfies: HC Colloquia

---

**HC 407 Ecology and Environmental Quality in the Himalaya**

**CRN:** 40216  
**Section:** 005  
**SEM:** W 1400 - 1550  
**1 HC Credit(s)**  

**Meets weeks 1-5 only.**  

Instructor(s): Donald Zobel

This course integrates information from physical science, biology, agriculture, and regional cultures. We will summarize the physical environment and biotic diversity of the Himalayan Mountains, with emphasis on patterns of vegetation and its use by people. We consider a set of real problems that cause malnutrition and environmental degradation. We consider the accuracy of “well-known facts” and the problems of dealing with uncertainty in scientific data as well as in estimating social and economic responses to proposed solutions. Meets weeks 1-5 only. Graded: P/N. Satisfies: HC Colloquia

---

Winter 2023 Corvallis Campus HC Colloquia

**HC 407 The Weird World of Quantum Mechanics**  
1 HC Credit(s)

**CRN:** 40202  
**Section:** 006  
**SEM:** F 1400 - 1450

Instructor(s): Albert Stetz

Are photons real? Can you change the past by doing an experiment in the present? Can you kill Schrodinger’s cat by looking at it? Is it true that a watched pot never boils? Can you send quantum information faster than the speed of light? Quantum mechanics is so weird, what is reality really like? These and many related questions have intrigued scientists since the birth of quantum mechanics almost a century ago. Much progress has been made, but there is a sense that we must drastically revise our understanding of reality, and no one is quite sure how to do that. These questions are partly philosophical and partly technical, but the technical part can be understood with a minimum of math and physics. In this course we will review the most bizarre aspects of quantum mechanics, look at the experiments that have been done to elucidate them, and discuss the philosophical ramifications. **Satisfies: HC Colloquia**

**HC 407 Creative Practice**  
2 HC Credit(s)

**CRN:** 38076  
**Section:** 007  
**HYB:** R 1000 - 1150  
**Meets weeks 1, 2, 4, 6, 8, and 10 only.**

Instructor(s): Thomas Bahde

This course provides an opportunity for students to devote time during the busy academic term to intentional engagement with their own creative projects and processes. Participants will work largely in their own time on any of their own creative work, broadly defined, and may use the course to continue work in progress, begin new projects, or explore their creativity without producing specific finished products. Alternating in-person meetings and Canvas check-ins provide an unobtrusive framework to discuss practices and theories of human creativity in the context of participants’ own work, with an emphasis on building an understanding of mindful creativity as a beneficial lifelong practice. (This is a hybrid course, meaning that we will be meeting in person and completing Canvas check-ins on alternating weeks. Our in-person meetings will take place in Weeks 1, 2, 4, 6, 8, 10, with Canvas check-ins in Weeks 3, 5, 7, 9.) **Meets weeks 1, 2, 4, 6, 8, and 10 only. Graded: P/N. Satisfies: HC Colloquia**

**HC 407 Science, Ethics and Star Trek**  
1 HC Credit(s)

**CRN:** 34727  
**Section:** 008  
**SEM:** W 1400 - 1450

Instructor(s): Diana Rohlman

“What you’re doing isn’t self-defense. It’s the exploitation of another species for your own benefit. My people decided a long time ago that that was unacceptable, even in the name of scientific progress.” —Captain Kathryn Janeway, Starfleet. To this day, while we have the ability to clone animals (and therefore humans), the ethical and moral ramifications have tempered many scientific advances. The fictional universe of Star Trek often explores the nexus of advanced technologies and the resultant ethical considerations. This class will use episodes from the Star Trek universe, paired with real-life case studies to delve into the seen and unforeseen consequences of science and medicine. We will go where few have gone before, using Star Trek as a lens to understand the role of ethics in biological and clinical research. Engage! **Satisfies: HC Colloquia**

**HC 407 All About Algae**  
1 HC Credit(s)

**CRN:** 40699  
**Section:** 009  
**SEM:** R 1700 - 1750

Instructor(s): Skip Rochefort

All About Algae will cover exactly what the title indicates. We will go from definition of algae (biological), types of algae, algae growth, algae blooms (good and bad aspects), and algae uses in food, medicine, environmental sustainability, and energy production. Most important of all, we will attempt to address any and all of your questions about algae! **Satisfies: HC Colloquia**

Reminder: Corvallis honors students can enroll in the honors Ecampus offerings: [https://honors.oregonstate.edu/class-schedule](https://honors.oregonstate.edu/class-schedule)
**HC 407  Electric Nature**  2 HC Credit(s)

**CRN:** 34728  **Section** 010  **SEM**  **F 1200 - 1350**

Instructor(s): Chet Udell

Wind chimes are an excellent example of something that translates an unseen environmental phenomenon into an audible signal that enables us to become more aware of the natural processes happening outside our own window that is both informative and aesthetically pleasing. For this course, we will identify one or two dynamic natural sites on campus and translate natural phenomenon like light, temperature, humidity, soil moisture, the movement of trees swaying, and rainfall into data using IoT (Internet of Things) environmental sensors. We’ll observe this data unfold in real-time online. Then, we will collect sounds and video from our natural sites to use as digital story telling materials. Live environmental data will interact with the sound and video we collect, enabling the environment itself to influence what is seen and heard. What if a tree swaying in the wind created music as it danced? What if the temperature of the day determined how warm or cool ambient light was in your room? We’ll explore all kinds of exciting cross-modal relationships between our environment, data, and digital sound and art in this course. **Graded: P/N. Satisfies: HC Colloquia**

**HC 407  Sacred Places and Links to Ancient Astronomy**  1 HC Credit(s)

**CRN:** 33267  **Section** 011  **SEM**  **T 1300 - 1350**

Instructor(s): Randall Milstein

A survey of sites, megaliths, caves, mountains, and structures considered sacred to human cultures and their links to ancient astronomical observations. This colloquium is not a survey of competing spiritual philosophies, but a discussion of what makes such sacred sites significant historically, scientifically, and culturally, especially as they relate to ancient astronomy. And why have these sites become loci for our curiosity and philosophical attention? **Graded: P/N. Satisfies: HC Colloquia**

**HC 407  The Science of Science Fiction**  1 HC Credit(s)

**CRN:** 33268  **Section** 012  **SEM**  **R 1300 - 1350**

Instructor(s): Randall Milstein

The good, the bad, the inventive, and the absolutely awful examples of “science” portrayed in science fiction films, television shows, comic books, and literature. Aliens, lightsabers, space battles, gravity drives, warp speed, laser beams, star gates, and worm holes; what’s real, what’s a possibility, what’s speculation, and what is impossible. There is a co-dependency between science and science fiction; many scientists and engineers acknowledge science fiction helped spark their imaginations of what might be possible. And science fiction authors are inspired by future science possibilities, but how do novel scientific ideas get into SciFi authors’ heads in the first place? Discussion and viewing of some of our favorite and least favorite science fiction, so we know what to look for while enjoying modern society’s best loved metaphors and mythologies. **Graded: P/N. Satisfies: HC Colloquia**

**HC 407  Psychology of Personal Excellence**  2 HC Credit(s)

**CRN:** 38071  **Section** 013  **SEM**  **F 1000 - 1150**

Instructor(s): William Massey

This course, which examines research on peak performers across domains, is an experiential seminar in the psychology of performance enhancement and personal excellence. Through multiple sources of evidence, students will identify and discuss characteristics of peak performance. Through experiential learning, discussion of books and film, as well as observations of others in performance situations, students will identify and apply strategies / techniques designed to facilitate their own peak performance and personal excellence. **Satisfies: HC Colloquia**

**Reminder:** Corvallis honors students can enroll in the honors Ecampus offerings: [https://honors.oregonstate.edu/classschedule](https://honors.oregonstate.edu/classschedule)
**HC 407  Introduction to Fan Fiction Studies**

CRN: 40200  Section 014  SEM  M 1000 - 1150  
Instructor(s): Rebecca Olson

Uses students' own participation in or research on self-selected fandoms to examine the critical distinction between affirmative and transformative fan practice. To what extent do works in a given fandom reinforce canon and to what extent do they present a political reimagining of the fictional world and/or its characters? Explores what fan fiction suggests about the limitations of mainstream and canonical narratives, the inherent value of authorship as a category, and the creative potential of passionate audiences. *Satisfies: HC Colloquia*

**HC 407  Materials, Technology, and Human Civilization**

CRN: 38072  Section 015  SEM  W 1400 - 1450  
Instructor(s): David Cann

Technology supports human civilization by addressing its “basic needs” of food, shelter, and clothing. Technology is itself enabled by the materials that are available to be exploited by human civilizations. On a fundamental level, those materials and the technologies they enable define what a human society can and cannot do. Therefore, we often define eras of human civilization according to the materials they had at their disposal, e.g. the stone age, the bronze age, etc., because these materials help describe the quality of life for those societies. In this colloquium, we will explore the complex relationship between materials, technology and human civilization through the lens of history. Using readings and discussions, we will analyze different eras of human history to understand the positive and negative impacts of new materials and technologies on human civilization. *Graded: P/N. Satisfies: HC Colloquia*

**HC 407  American Society and Politics in Film**

CRN: 40199  Section 016  SEM  M 1400 - 1450  
Instructor(s): David Bernell & Catherine Bolzendahl

This course examines American society and politics through the medium of film. We will look at several topics such as democracy and governance, gender inequality, race and racism, religion in American life, the exclusion and inclusion of people identifying as LGBTQ, political dysfunction, and environmental protection. The course will look at the history and evolution of the conflicts that have characterized these issues in American society and politics, with the aim of understanding the present state and how we arrived at this point. *Satisfies: HC Colloquia*

**HC 407  Adulting: Being a Young Professional in Today's Society**

CRN: 40769  Section 017  SEM  MW 1500 - 1550  
*Meets weeks 1-5 only.*

Instructor(s): LeeAnn Baker

The course will explore the process of coming of age as a young professional in today's society. We will look at how society defines “childhood” or “adulthood” throughout history, popular culture, and media to investigate the concept of what it means to be an adult today. Students will identify the ways in which American adulthood is socially constructed, utilize effective strategies for time management, career development, and financial responsibility and understand the civic responsibility of coming of age and its applications. *Meets weeks 1-5 only. Graded: P/N. Satisfies: HC Colloquia*
**HC 407 Illegitimate Music: Improvisation and Original Instrumentation**

<table>

Instructor(s): John Campbell

In this course, we’ll explore the creative and expressive possibilities offered by “illegitimate music”: music produced without regard to genre or formal conventions, often improvised and performed in nonprofessional settings. We’ll study examples of such music, and we’ll perform original music on self-made instruments in group contexts. Here “illegitimate” does not have a negative connotation; it simply denotes musical expression not sanctioned by the music academy or the entertainment industry. Thus this is a course for the “untrained” (although formally trained musicians are certainly welcome to participate): it is not a course in academic music theory or composition. This course does not regard music as a product, but rather emphasizes music as process and permission for free and authentic expression. Anyone who desires to create original music can participate. **Graded: P/N. Satisfies: HC Colloquia**

Instructor(s): Rebekah Sinclair

Insects are extremely delicious... if you’re a bird. But would you incorporate them as a mainstay of your diet? In this class—which, to be clear, is not a cooking class 😊—we’ll consider emerging arguments for and technologies around the large-scale consumption of insects as a replacement for other animal proteins. We will ask questions like, Is it ethical to eat insects and how do we decide? Do the same kinds of moral concerns about eating mammals or birds (or humans) apply to insects, or do we need to ask totally different questions? How do we think about and determine insect sentience and is sentience the most important moral question? Is eating insects really more sustainable than eating other animal proteins or only eating plant proteins? And if the problem is more with the capitalist systems we’re producing within, not individual protein choices, then might insect protein face similar problems as other animal agriculture? In addition to moral questions, we will consider how different cultures have understood and practiced eating insects for centuries and how the disgust factor (whether evolutionary or cultural) might impact the success of entomophagy at a global scale. We will wrestle with the relationship between rational arguments and moral intuitions around one of the most ignored and underappreciated groups of the animal world, and you will get a chance to develop and reflect on your own relations to insects as well as your stance on if they are food, foe, friends, or all of the above. **Graded: P/N. Satisfies: HC Colloquia**
**HC 407 Uploading Life: Deep Questions About Virtual Reality**  
2 HC Credit(s)

CRN: 40205  
Section 021  
SEM  
R 1000 - 1150  

Instructor(s): Rebekah Sinclair

Virtual reality technologies raise many cool questions about the nature of consciousness and experience, what truly constitutes reality, and how ethics in digital spaces relate to ethics in “the real world” (whatever “real world” means!). What even is “the virtual” and what is “reality”? Is there a clear difference, and, if so, where and how do we draw the line? In this class, we will explore questions around virtual and augmented reality technologies from many perspectives: philosophy of consciousness, theories of mind, ethics, Indigenous science studies, animal behavior, game theory, and more. We will ask time-honored questions like, How do we know we’re not living in a simulation? But we will also investigate newer mind-bendy directions, like, isn’t reality already virtual, since experience is not a reflection of objective reality, but thoroughly modified by species-specific perceptions? What aspects of “reality” get selected for, and which get excluded, when we’re trying to make VR “more real,” and for whom is this “reality” tailored? How do VR experiences challenge or reproduce ethical norms, like who we think it’s okay to kill, hunt, or grope? Is it moral to make a VR avatar of someone without their consent? Does bias in VR headset design negatively impact women? Would cows wearing VR headsets be happier to die, or could VR experiences of slaughterhouses compel us not to eat them at all? Could you really upload your consciousness and live in VR forever? And, most importantly, should you join Zuckerberg’s Metaverse and how much of your soul would that cost? There are blue pills and red pills, which will you take? **Graded: P/N. Satisfies: HC Colloquia**

**HC 407 Exploring the History of Commerce through Board Games**  
2 HC Credit(s)

CRN: 38075  
Section 022  
SEM  
R 1400 - 1550  

Instructor(s): Dennis Adams

What can board games teach us about human interaction throughout time? Let’s find out! In this class we will explore the economic and historical themes of various Euro-style board games by actually playing them in class. Expect self-directed research, informal presentations, playful debate, and reflective writing. This class is intended to be fun and highly interactive. We’ll alternately educate, learn from, impress, and oppress (as games occasionally demand) each other, all in a spirit of mutual respect and curious exploration. **Graded: P/N. Satisfies: HC Colloquia**

**HC 407 Because It’s There (and looks fun): Survival as Entertainment**  
2 HC Credit(s)

CRN: 38077  
Section 023  
SEM  
R 1000 - 1150  

Instructor(s): Rob Drummond

Humans crave adventure, pushing our bodies and wills to the limits, testing ourselves against forces much larger than ourselves. Confronting such forces often brings us to the brink of destruction. When things inevitably go wrong, who lives and who dies? Why? In this course we will consider these questions as we examine accounts of survival, of extreme fights with nature. What is it about modern American life that compels some people to seek out danger and a very real and ready risk of self-annihilation? Why do otherwise rational people take such extraordinary risks when no imperative exists beyond mere entertainment? Surely our forebears—many of whom fought every day just to stay alive in a truly dangerous landscape—would think this behavior absurd and irresponsible, as would any number of people around the world who don’t live in such a relatively safe environment. Who would so needlessly risk life in a time and place where staying alive is so easy? **Graded: P/N. Satisfies: HC Colloquia**

Reminder: Corvallis honors students can enroll in the honors Ecampus offerings: https://honors.oregonstate.edu/class-schedule
**HC 407  **  **Last Year Experience**  
2 HC Credit(s)  
CRN: 34496  
Section 024  
SEM  
T 1000 - 1150  
Instructor(s): Don Johnson  

The Last Year Experience seminar focuses on life after college. Often we view life after college as a career, but a career is only a small part of life after college. Life after college might include; a new town in a new state, a new apartment, finding a grocery store, a doctor, a health club, a church, a bar, a new neighbor and the critical one - friends. Graduating students often have concerns about friendships. “What will happen to my college friends, will I ever see them again, how will I make new friends?” The reality is many of your very best life friends are people you have not yet met. You will most likely maintain a rich relationship with a group of college friends and gather with them when possible, but you will also grow new significant relationships. For many, you will find your life partner after college, some of you may have children, most of you at some point in time will deal with aging family members, and most of you will wonder, “what is my purpose?”  

**Graded: P/N. Satisfies: HC Colloquia**

**HC 407  **  **How to be Less Wrong: A Study in Common Misconceptions**  
2 HC Credit(s)  
CRN: 40198  
Section 025  
SEM  
F 1000 - 1150  
Instructor(s): Andy Olstad

Some of us lived in the universe this comic describes: https://xkcd.com/843/  
Do you wish you lived in this universe too? Help make the world a little better by checking your own misconceptions! Each week we will choose a different area of knowledge (cooking, literature, science, religion, history, and more) and investigate common misconceptions. We will draw from several sources, including the Wikipedia list but also from sources like Lies My Teacher Told Me or even The Structure of Scientific Revolutions. Students will have the opportunity to make predictions, do their own myth-busting, and survey friends to find out how common a mistaken belief is. Students should come to this class ready to joyfully delve into something we thought we knew- and be willing to learn that what we know ain’t so!  

**Graded: P/N. Satisfies: HC Colloquia**

**HC 407  **  **Technology and the Good Life**  
2 HC Credit(s)  
CRN: 36206  
Section 026  
SEM  
R 1400 - 1550  
Instructor(s): Kenneth Funk  

We all seek the Good Life, a life wherein our material needs are met and certain higher goods are realized, and, for many of us, technology has become a chief, if not the pre-eminent, means to it. But technology can also be an impediment to the Good Life, and the roots of this ambivalent nature of technology may lie in our own fallibilities, mental and moral. In this Colloquium, we will discuss the Good Life, why technology can be both means and impediment to it, and how to make technology more of the former and less of the latter.  

**Graded: P/N. Satisfies: HC Colloquia**

**HC 407  **  **Exploring History Through the Graphic Novel**  
2 HC Credit(s)  
CRN: 40197  
Section 027  
SEM  
T 1600 - 1750  
Instructor(s): Andrea Marks  

This class uses the graphic novel as a means to explore various cultures and histories. We will examine both the visual style of the graphic novel, the writing and narrative content. A variety of narrative structures and visual styles, reading modes, related to comics/graphic novels will be explored and the book Understanding Comics will be used as the macro guidebook in learning vocabulary and concepts of visual narrative. Typically, students read 7 graphic novels over the course of the term, with each weekly meeting used for lively discussion about the book and the historical topic at large.  

**Graded: P/N. Satisfies: HC Colloquia**

**Reminder:** Corvallis honors students can enroll in the honors Ecampus offerings: https://honors.oregonstate.edu/class-schedule
What Is Creativity?

CRN: 36503  
Section 028  
SEM  
M 1400 - 1550  

Instructor(s): Jeremy Townley

When we think about creativity, most of us privilege art: painting, sculpture, literature, and film. If we think a little harder, we might include dance, opera, photography, symphonic music, and theater, among other highbrow art forms. Yet why do we usually confine notions of creativity to the fine arts? Doesn’t popular art (graphic novels, Hollywood movies, pop music, public graffiti-murals), not to mention other domains (architecture, computer science, engineering, math, physics), demand similar types of creativity? Is it possible to generalize patterns of thought and/or behavior from one creative endeavor to another? We will explore these and other questions through readings and films by creative practitioners and scholars, short written reflections, small-group and class discussions, informal presentations, a short synthesis essay, and a final creative project. Graded: P/N. Satisfies: HC Colloquia

People Like Us: Social Class in America

CRN: 40196  
Section 029  
SEM  
M 1200 - 1350  

Instructor(s): Jeremy Townley

If asked about our social standing, most of us would say we’re “middle class.” But what does that actually mean? In this colloquium, we will use a combination of narrative and analytical texts, along with a documentary film, to investigate the intersectional complexities of social class in America. We will explore such questions as: What is class? How can it limit individual and collective freedoms? What effect does it have on community? How does it influence our perceptions of individuals’ skills and abilities? How are classes created and maintained? Our readings, discussions, informal presentations, and writing will build toward a final project: a reflection on and/or exploration of some aspect of social class in the form of a personal essay, interview(s), digital narrative, photo collage, etc. Graded: P/N. Satisfies: HC Colloquia

Exploring Art through Creative Writing

CRN: 40195  
Section 030  
SEM  
MW 900 - 950  

Required all-day field trip, Saturday 2/11/23 9:30 am - 6:30 pm.

Instructor(s): Jeff Fearnside

Utilizing original artwork as experienced on site at various locations in local environments and online, class participants will produce their own original pieces of writing (either poetry or prose) that responds to the art in some significant way. Involves reading assignments, formal writing assignments, virtual roundtable discussions and a field trip, and other online activities and exercises. Required all-day field trip, Saturday 2/11/23 9:30am - 6:30 pm. Course Fee: $32. Graded: P/N. Satisfies: HC Colloquia

Energy IQ: Sustainable Energy Technology and Policy

CRN: 37427  
Section 031  
SEM  
TR 1600 - 1650  

Instructor(s): Skip Rochefort

The Energy landscape is dynamic! We will take both a qualitative and quantitative look at energy resources and uses in the United States and beyond. We will consider how energy is generated or obtained and consumed in the US. We will also explore the global implications of energy use and consumption. We will examine predominant and emerging technologies on both the resource and consumption sides. We will also examine the role of public policy and social justice in influencing choices regarding energy use and availability. Students will participate in and lead discussions, give presentations, and generate a personal energy philosophy/statement. Satisfies: HC Colloquia

Reminder: Corvallis honors students can enroll in the honors Ecampus offerings: https://honors.oregonstate.edu/class-schedule
**HC 407  Visual Meaning in Pop Music**

2 HC Credit(s)

CRN: 38811  Section 033  SEM  F 1200 - 1350

Instructor(s): Brandy St. John

This colloquium will focus on analysis of the ways in which wardrobe, album artwork, music videos and more coalesce to create meaning and identity for popular musicians. We’ll ask: what is being communicated in this image and how? We’ll consider the intersections of art, expression, commerce, and branding and how visual rhetoric in popular music changes with cultural and media shifts. As your instructor, I’ll draw on my twenty years of experience as a stylist in the music industry to elucidate the ways in which artists consciously and unconsciously create their image. The course will move chronologically, starting with pop icons of the fifties like Elvis, and move up to modern day artists like Lil Nas X. Weekly discussions will focus on visual analysis of images using textual evidence to support our interpretations while considering the media and social contexts of the time period. Short readings will be taken from music magazines and websites, chosen to help us understand how an artist is perceived by the public. Weekly assignments will be in the form of visual collage: collecting images of a musician’s wardrobe, make-up, poses, artwork, stage design, music videos and more. The collage will then be paired with a song and brief process memo that analyzes the visual rhetoric you’ve assembled. This writing will use textual evidence to support insightful interpretation that incorporates a dynamic mix of lenses like psychology, politics, and identity. For the final project, you’ll choose an artist and create an original piece of visual rhetoric that is on-brand for that artist. This project can be: styling an outfit for your artist, writing a music video treatment, designing an album cover, or any visual project you successfully propose. This final project will include a two-page artist’s statement about your visual choices and a summary of what you learned about visual meaning during our engagement with visual meaning in popular music. **Satisfies: HC Colloquia**

Reminder: Corvallis honors students can enroll in the honors Ecampus offerings: https://honors.oregonstate.edu/class-schedule
Winter 2023 Corvallis HC Electives

**BA 161H  Innovation Nation - Awareness to Action**  2 HC Credit(s)

This course is shared with a section for COB Dean's Academy students. Honors students should register for one of the following combinations:

- Section 020 (lec) & section 029 (rec) OR
- Section 030 (lec) & section 039 (rec) OR
- Section 032 (lec) & section 039 (rec).

| CRN: 34832 | Section 020 | LEC | TR 1100 - 1150 | Amy Neuman |
| CRN: 34839 | Section 029 | REC | F 1100 - 1150  | Sandra Neubaum |

**OR**

| CRN: 34834 | Section 030 | LEC | TR 1300 - 1350 | Amy Neuman |
| CRN: 40905 | Section 039 | REC | F 1300 - 1350  | Sandra Neubaum |

**OR**

| CRN: 34837 | Section 032 | LEC | TR 1400 - 1450 | Amy Neuman |
| CRN: 40905 | Section 039 | REC | F 1300 - 1350  | Sandra Neubaum |

First course in a two-course sequence. Begins a conversation on self-management, offering opportunities for active reflection on critical skill sets necessary for success in today's global market. Builds a foundation of entrepreneurial knowledge and gaining a competitive edge while becoming aware of your role in managing your own career. The section of BA 161H students take in Winter determines which section of BA 162H they will need in the Spring - instructors will help students match their winter and spring sections of the courses during class. **This course is shared with a section for COB Dean's Academy students.** Honors students should register for one of the following combinations:

- Section 020 (lec) & section 029 (rec) OR
- Section 030 (lec) & section 039 (rec) OR
- Section 032 (lec) & section 039 (rec).

2 out of the 3 OSU credits earned will count toward Honors College requirements. RESTRICTIONS: For first-year students in the College of Business only. **Satisfies: HC Elective**

**BA 213H  Managerial Accounting**  4 HC Credit(s)

This course is shared with a section for COB Dean's Academy students. Honors students should register for section 001.

| CRN: 36202 | Section 001 | LEC | MW 1400 - 1550 |

Instructor(s): Alan Fudge

Accounting information from the perspective of management users with an emphasis on data accumulation for product costing, planning, and performance evaluation and control. **This course is shared with a section for COB Dean's Academy students.** Honors students should register for section 001. PREREQS: BA 211/211H. RESTRICTIONS: For Business majors/minors only. Minimum of sophomore standing required. **Satisfies: HC Elective**

Reminder: Corvallis honors students can enroll in the honors Ecampus offerings: [https://honors.oregonstate.edu/class-schedule](https://honors.oregonstate.edu/class-schedule)
**BA 223H / BA 390H  **  **Principles of Marketing**  
4 HC Credit(s)  

*This course is shared with a section for COB Dean's Academy students.  
Honors students should register for section 001.*  
Choose either the BA 223H section OR the BA 390H section, not both.  
Though there are two options for CRNs to use, this is one class that meets together.

-- -- -- --  
Instructor(s): Leanna Dillon

The Honors College provides an opportunity for HC students to earn credit while serving and learning in their community. To earn one honors elective credit, commit to volunteering 2-3 hours per week in a local community agency. Visit the course on Canvas to access the materials provided by Community Engagement & Leadership to guide your experience. If you would like support in finding a place to volunteer visit cel.oregonstate.edu. At the end of the term submit the guided reflection assignment on Canvas due by 5 pm the Monday of finals week. Registration instructions: contact Leanna.Dillon@oregonstate.edu to receive a learning agreement form, return the form signed by you and your site supervisor to receive an override to register for the course prior to the end of week 1 of the registration term.  
**Graded: P/N. Satisfies: HC Elective**

HC 408 Stage 1 will introduce you to the Thesis Success in Stages (TheSIS) process, as well as some of the research happening at OSU and how undergraduate students can take part. You’ll explore ways that your own interests, academic or otherwise, can be a springboard to a thesis topic, and discover the benefits of doing a thesis that go well beyond your time at OSU. By the end of the term, you’ll have a (flexible) plan of action in place for the years ahead. A required course for all first-year and transfer students to be taken during the first three terms in the Honors College. **Meets weeks 1, 2, 4, 6, and 8 only.** Graded: P/N. Satisfies: HC Thesis

### Thesis Stage 2: Explore & Build

<table>
<thead>

<td>Kassena Hillman &amp; Andy Karplus</td>
</tr>
</tbody>
</table>

Instructor(s): Kassena Hillman & Andy Karplus

Thesis Stage 2: Explore & Build will guide you through the second stage of the Thesis Success in Stages (TheSIS) process. In this class you will explore the many resources at the HC and OSU to help you find a mentor and a project, build strategies for a successful thesis experience, learn the components of the thesis, and plan out your next steps. You will also hear from students and faculty with recent experience in the thesis process. You do not need to have a thesis idea to be in Stage 2. This course is a hybrid course that consists of weekly online assignments and one hour in-person class meetings weeks 2, 4, 6, & 10. This course will be team taught with an HC Academic Advisor and HC faculty. **Meets weeks 2, 4, 6, and 10 only.** **PREREQ:** Prior completion of Thesis Stage 1 as outlined at honors.oregonstate.edu/thesis. **Graded:** P/N. Satisfies: HC Thesis

---

**Note:** the credit-based HC 408 Thesis Stage 3 course is no longer offered and has been replaced by Stage 3 workshops and other opportunities. Questions? Contact uhcadvisor@oregonstate.edu.
**HC 408  Thesis Stage 4: Compose & Complete**  
1 HC Credit(s)

**CRN:** 33717  
**Section:** 040  
**WS**  
**F 1400 - 1550**  
**Meets in weeks 2, 4, and 6 only.**

Instructor(s): Beau Baca

Thesis Stage 4: Compose & Complete will guide students through the final stage of the Thesis Success in Stages (TheSIS) process, Compose & Complete. The goals of this stage are the completion of a thesis draft, the preparation for the thesis defense, and the design of a thesis poster. Students need to have completed a significant amount of their research and be prepared to begin writing the thesis draft. The course is largely discussion based, with time for writing workshops built in; therefore, this course is relevant for students in all disciplines. **Meets weeks 2, 4, and 6 only.** PREREQS: Prior completion of TheSIS Stages 1, 2, & 3 as outlined at honors.oregonstate.edu/thesis. **Graded: P/N. Satisfies: HC Thesis**
