| OSU_ Schedule | Summer 2023 | BaccCore Science, Technology , Society | | FES 485H | 401 | Consensus and Natural Resources | 3 | Stacy Rosenberg | Using a working group approach, select a natural resource topic, study the team process and interaction as a method of learning, explore the issue using systems practice, and strive for consensus on solutions to the issue. |
| OSU Schedule | Summer 2023 | Colloquia | Ecampus | HC 407 | 401 | The Handmaid's Tale: Gender, Race, and Religion | 2 | Eliza Barstow | In this course, you will read Margaret Atwood's novels The Handmaid's Tale and The Testaments, and you will also watch the first season of the Hulu adaptation of The Handmaid's Tale. Both the novels and the television show force us to ask difficult questions about personal freedom; the responsibilities of national governments; the relationships between men, women, and children, the diverse ways in which religion can be interpreted and put to use in society; and the nature and causes of human happiness. Moreover, the content of these stories requires us to take a hard look at United States history (most specifically at the history of slavery and the exploitation of black bodies) and also at our many potential futures as a society. In this class, your engagement with the material will culminate in the production of a short piece of fiction (or possibly a screen play or poem) in which you write from the standpoint of one of the characters we meet in Gilead. As a class, we will create a collection of stories that broadens our understanding of the many people who inhabit and shape everyday life in Gilead. |
| OSU Schedule | Summer 2023 | Colloquia | Ecampus | HC 407 | 402 | The Holocaust in the Digital Age | 2 | Katherine Hubler | A "virtual tour" of Anne Frank's hiding place. Conversations with 3-D avatars of actual Holocaust survivors. Tweets from now-deceased Jewish passengers of the ill-fated St. Louis cruise-liner, force to return to Europe on the eve of WWII after being denied entry into Cuba, the US, and Canada. As the World War Two era fades deeper into the recesses of the 20th century and the last survivors of Nazi persecution approach their nineties, scholars and educators are turning increasingly to the digital to preserve evidence, raise awareness, and prompt sober reflection about the Holocaust. While the technologies have become more sophisticated, new forms of media have actually been central to efforts to record survivor testimonies and bring perpetrators to justice since the end of World War Two. This class explores the historical intersection of the Holocaust and new media. It will also analyze how social media, visualizations, virtual reality, and artificial intelligence are currently being used by Holocaust researchers and educators during a time when awareness about the Holocaust is fading and antisemitic incidents are on the rise. |

| OSU Schedule | Fall 2023 | BaccCore Contempor ary Global Issues | ' | FW 345H | 401 | Global Change Biology | 3 | Lisa Ellsworth | Global Change Biology is the study of the impact of climate change on natural systems and actions to mitigate (slow) or adapt to climate change. Global climate change is having dramatic effects on natural resources including fish and wildlife populations and their habitats. Students will gain an understanding of the role that natural ecosystems (oceans, forests, wetlands, grasslands etc.) play in regulating the climate; how land use affects the earth's climate; how climate change will affect fish, wildlife and their habitats; and the role that managers and researchers can play in mitigating and adapting to climate change. |
| OSU_ Schedule | Fall 2023 | BaccCore Writing II | Ecampus | WR 227HZ | 400 | Technical Writing | 4 | Emily Elbom | Introduces students to producing instructive, informative, and persuasive technical/professional documents aimed at well-defined and achievable outcomes. Focuses on presenting information using rhetorically appropriate style, design, vocabulary, structure, and visuals. Gathers, reads, and analyzes information and learns a variety of strategies for producing accessible, usable, readercentered deliverable documents that are clear, concise, and ethical. |

| OSU Schedule | Fall 2023 | Colloquia | Ecampus | HC 407 | 401 | How to Be Less Wrong: a Course in Common Misconceptions | 2 | Andy Olstad | Help make the world a little better by checking your own misconceptions! Each week we will choose a different area of knowledge (cooking, literature, science, religion, history, and more) and investigate common misconceptions. We will draw from several sources, including the Wikipedia list but also from sources like Lies My Teacher Told Me or even The Structure of Scientific Revolutions. Students will have the opportunity to make predictions, do their own myth-busting, and survey friends to find out how common a mistaken belief is. Students should come to this class ready to joyfully delve into something we thought we knew- and be willing to learn that what we know ain't so! |
| OSU_ Schedule | Fall 2023 | Colloquia | Ecampus | HC 407 | 402 | Philosophy and Happiness | 2 | Marta Kunecka | In this course we will immerse in the wisdom of some of the greatest philosophers, and search for answers which can become guidelines for life. By closely examining the thought of a few chosen Western and Eastern thinkers as well as analysis of studies emerging from the field of positive psychology, we will explore and brainstorm different ideas of happiness in order to find its essence. |
| OSU Schedule | Fall 2023 | Colloquia | Ecampus | HC 407 | 403 | Science, Ethics and Star Trek | 1 | Diana Rohlman | "What you're doing isn't self-defense. It's the exploitation of another species for your own benefit. My people decided a long time ago that that was unacceptable, even in the name of scientific progress." Captain Kathryn Janeway, Starfleet. To this day, while we have the ability to clone animals (and therefore humans), the ethical and moral ramifications have tempered many scientific advances. The fictional universe of Star Trek often explores the nexus of advanced technologies and the resultant ethical considerations. This class will use episodes from the Star Trek universe, paired with real-life case studies to delve into the seen and unforeseen consequences of science and medicine. We will go where few have gone before, using Star Trek as a lens to understand the role of ethics in biological and clinical research. Engage! |

We will look at a variety of texts and films featuring lady detectives—some very ladylike indeed, some decidedly not—to examine the cross-sections between gender and genre. How do these detectives use their performance of gender to solve mysteries? How do these stories challenge, reinforce, and/or complicate traditional notions of gender and crime? |
| OSU Schedule | Winter 2024 | Colloquia | Ecampus | HC 407 | 402 | American Identity in the World | 2 | Eliza Barstow | This class invites you to read about and discuss some the key issues that have contributed to ideas about American identity in the world. As we engage with the class readings, we will constantly ask questions such as: How have people used the term "American" at different points in United States history? Who has been included or excluded from this category at different points in U.S. history? How have American ideas of the "good" or "correct" life influenced U.S. relations with people in other parts of the globe? What are some of the ways in which Americans have consciously attempted to offer a vision of "American identity" to people in other parts of the globe? How have economic endeavors (and challenges) served to shape American identity both at home and throughout the globe? How has various forms of art—film, literature, music—etc. served to create a sense of American identity? |
